

GIBECK FILTRATION SOLUTIONS

ISO-GARD® HEPA FILTERS

Iso-Gard HEPA filters are extremely potent weapons against the passage of bacteria and viruses during mechanical ventilation and general anesthesia. Well-documented Gibeck quality provides hospital staff with a safe and secure choice of breathing filters.

ISO-GARD HEPA LIGHT

A hydrophobic bacterial/viral filter with HME properties, the Gibeck Iso-Gard HEPA Light offers the highest performance specifications available.

- Compact, lightweight design
- 99.99999% bacterial; 99.9999% viral efficiency
- Available in standard and gas sampling port versions with two ISO standard connector options; 28012 has 22 mm I.D./15 mm O.D. x 22 mm O.D./15 mm I.D. connectors; 28022 has 22 mm I.D. x 22 mm O.D./15 mm I.D. connectors

ISO-GARD DEPTH FILTER

An advanced bacterial/viral filter, the Iso-Gard Depth Filter which offers excellent performance for protection on the patient end of the circuit when an HME is not required.

- 99.999% bacterial; 99.99% viral efficiency
- Weight 22 grams; dead space 26 mL

ISO-GARD HEPA SMALL

The Iso-Gard HEPA Small uses the same proven bi-directional bacterial/viral filtration media used in the larger HEPA Light models in a smaller size.

- For use with adult and pediatric patients
- Bacterial/viral efficiency: 99.9999%
- Available in both straight and angled version
